## PROFILE

Hello, my name is Phat. With a strong passion for developing user interfaces, I am eager to apply my self-acquired knowledge of ReactJS and NodeJS to enhance my technical skills. I am always seeking opportunities to challenge myself and develop programming skills through real-world projects. My goal is to contribute meaningfully to team projects while learning from experts in the field. I also aim to improve my teamwork, communication, and problem-solving abilities in a professional environment, further enhancing my skills and contributing to the overall growth.

## PROJECTS

### EDITE-SHOP Website

8/2024 - 11/2024

**Role:** Full Stack Developer

**Website link:** <https://edite-shop.netlify.app>

#### Description:

- Designed and implemented a fully responsive e-commerce website, focusing on user-friendly interfaces and seamless user experience (UX/UI).
- Developed key features such as: Product Display, Search and Filter product, Cart and Checkout, Wishlist, Animations and Transitions, Login with Goggle account
- Ensured cross-device compatibility with responsive design principles, delivering a consistent experience across desktops, tablets, and mobile devices.
- Optimized performance and SEO to enhance website loading speed and search engine visibility.
- Utilized modern web technologies such as **ReactJS**, **CSS Modules**, and **React-Spring**, demonstrating expertise in front-end development and web animations.
- Built backend using **Node.js** and **Express.js**, creating RESTful APIs for efficient communication between the front end and server.
- Designed and implemented a secure user authentication system with **JWT**, ensuring data protection and secure login functionality.
- Integrated a **MongoDB** database for dynamic storage and retrieval of product, user, and order information.

## EDUCATION

### INTERNET OF THINGS / IOT

2022 - 2027

Posts and Telecommunications Institute of Technology
